

Fariyaa

Machine Learning Engineer | Data Scientist

b@gmail.com

PROFESSIONAL SUMMARY

Senior Data Scientist and Machine Learning Engineer with experience designing, developing, deploying, and optimizing AI/ML models across SaaS, PaaS, healthcare, e-commerce, finance, and enterprise automation use cases. Skilled in Python, NumPy, Pandas, Scikit-Learn, SQL, data preprocessing, feature engineering, predictive modeling, model evaluation, data visualization, MLOps, and cloud-based deployment. Proven ability to collaborate with business, product, and engineering teams to identify AI opportunities, build scalable pipelines, monitor model performance, and deliver measurable improvements in accuracy, automation, efficiency, and revenue outcomes.

CORE SKILLS

Python • NumPy • Pandas • Scikit-Learn • SQL • Machine Learning • Predictive Modeling • Data Preprocessing • Feature Engineering • Model Training • Model Evaluation • Model Optimization • Data Visualization • Matplotlib • Seaborn • Plotly • TensorFlow • Keras • PyTorch • Deep Learning • Natural Language Processing • Generative AI • Large Language Models • RAG • LangChain • MLflow • MLOps • Model Deployment • FastAPI • Flask • Streamlit • AWS SageMaker • AWS Bedrock • AWS Lambda • GCP Vertex AI • Azure ML • Git • GitHub Actions • CI/CD • Docker • OpenCV • PySpark • NoSQL • Vector Databases • Pinecone • Faiss • Chroma DB • Business Intelligence • Statistical Analysis • A/B Testing • Agile Methodologies • Stakeholder Collaboration

PROFESSIONAL EXPERIENCE

Senior Data Scientist & Machine Learning Software Engineer | PURELOGICS

12/2024 – Present

- Designed, deployed, and optimized end-to-end AI/ML pipelines on AWS and GCP for enterprise-grade applications.
- Built scalable RAG, conversational AI, remote patient monitoring, and advisory systems using Generative AI and machine learning workflows.
- Developed data pipelines and model lifecycle processes supporting development, deployment, monitoring, and optimization.
- Collaborated with cross-functional teams to align AI strategies with business objectives and production requirements.
- Led LLMOps and MLOps initiatives to improve deployment cycles, model reliability, automation, and operational efficiency.

Senior Data Scientist Machine Learning & Gen AI Engineer | NVIDIA

08/2024 – Present

- Contributed to GPU-optimized AI applications and enterprise-level Generative AI solution testing through NVIDIA and Z by HP developer programs.
- Developed and tested open-source and enterprise-level LLM solutions for Generative AI use cases.
- Integrated NVIDIA tools and SDKs to optimize AI workflows and improve model performance.
- Collaborated with technical teams to validate AI tools, frameworks, and deployment approaches.
- Supported open-source LLM initiatives focused on scalable AI development and innovation.

Senior Data Scientist & Machine Learning Engineer | BLOCBELT

12/2022 – 12/2024

- Led AI-driven SaaS and PaaS solution development while managing a team of three across big data, analytics, and machine learning engineering.
- Improved sales forecasting accuracy by 80–90% through predictive modeling and data analysis across 120+ market entities.
- Developed statistical models and predictive analytics solutions that contributed to an 18% increase in company revenue.
- Enhanced data visibility by 45% through strategic dashboards and data visualization for cross-functional decision-making.
- Launched a personalized fashion e-commerce platform with a recommendation engine, increasing sales by 80% and online orders by 200%.
- Conducted 25+ A/B tests to optimize digital customer experience and improve e-commerce workflows.
- Streamlined data processing workflows using OpenCV and automation techniques to improve operational efficiency and reduce costs.

AI Data Scientist Kaggle Master Mentor | GOOGLE-KAGGLE

12/2022 – 11/2024

- Mentored aspiring data scientists through the Kaggle-X BIPOC Mentorship Program for 20 hours per week.
- Guided mentees in machine learning, data science workflows, model development, and real-world problem-solving.
- Led a team of four mentees, strengthening their technical skills and applied project execution.
- Collaborated on high-impact AI projects and contributed to the global data science community.
- Recognized among the Top 100 Kaggle contributors globally.

Data Scientist | Crypto-Express

01/2022 – 12/2022

- Developed an anti-spoofing face application to strengthen digital identity security and reduce identity fraud by 70%.
- Built and deployed AI/ML solutions that improved operational efficiency by 25% and reduced costs by 15%.
- Engineered predictive models that delivered actionable insights and supported a 20% revenue increase.
- Performed exploratory data analysis, machine learning, and deep learning workflows to save 250+ hours of manual analysis annually.
- Delivered remote AI/ML projects while adapting to dynamic business and technical requirements.

Artificial Intelligence Engineer | Pakistan Freelancing Training Center

01/2021 – 12/2021

- Led AI and data science training sessions focused on practical, real-world machine learning applications.
- Designed and deployed models using TensorFlow and Keras to improve system efficiency and accuracy.
- Automated repetitive data tasks using Python, reducing manual effort and error rates.
- Helped bridge academic learning with industry-ready AI and data science skills.
- Applied ongoing AI research and emerging methodologies to training and project development.

PROJECTS

AutoML-Studio

Built a low-code/no-code machine learning platform for rapid development and deployment of classification, regression, time-series forecasting, and clustering models. Integrated MLflow for experiment tracking, SHAP for explainability, data drift detection for reliability, and FastAPI and Streamlit for deployment.

Customer Satisfaction Prediction System

Created a predictive analytics system using ZenML and MLflow within an MLOps framework, achieving 93% accuracy in forecasting customer satisfaction and supporting improved customer retention strategies.

Conversational AI Chatbot for Customer Support

Designed and deployed an enterprise chatbot using GPT-4o, LangChain, and AWS Bedrock with intent recognition and dynamic response generation, reducing customer query resolution time by 40%.

Health Assistance Application

Architected a health assistance application using Gemini 1.5 Pro, RAG, and LangChain to support doctors and patients with medical information, symptom guidance, treatment suggestions, and preventive healthcare insights.

DocuWiz AI

Engineered a document intelligence tool using BART, DistilBERT, RAG, and LLMs for text extraction, summarization, sentiment analysis, and document insights. Deployed with Streamlit and FastAPI, reducing document processing time by 60%.

Harvestify AI-Powered Plant Health Assistant

Designed and implemented an AI application using Azure AI Studio and Azure App Services for real-time plant disease diagnosis, crop recommendations, and fertilizer suggestions based on image analysis, soil, and weather conditions.

EDUCATION

Bachelor in Computer Science, Major in Artificial Intelligence and Computer Science | Institute of Management Sciences

CERTIFICATIONS

- IBM Machine Learning Specialization Professional Certificate, IBM
- Deep Learning Specialization, DeepLearning.ai
- Microsoft Azure AI Fundamentals AI-900 Exam Prep Specialization, Microsoft
- Prompt Engineering for ChatGPT, Vanderbilt University
- Machine Learning Engineering for Production (MLOps), DeepLearning.ai
- AI Product Management, Duke University
- Generative Adversarial Networks (GANs) Specialization, DeepLearning.ai
- IBM Generative AI Product Managers, IBM
- Preparing for Google Cloud Certification: Machine Learning Engineer, Google
- IBM AI Product Manager, IBM
- AWS Cloud Solutions Architect Professional Certificate, Amazon Web Services
- Google Project Management: Professional Certificate, Google
- Practical Data Science on the AWS Cloud Specialization, DeepLearning.ai
- Machine Learning Specialization, DeepLearning.AI
- MLOps | Machine Learning Operations Specialization, Duke University
- Google Business Intelligence Professional Certificate, Google
- Advanced Machine Learning on Google Cloud Specialization, Google Cloud
- Large Language Model Operations (LLMOps), Duke University
- Google Advanced Data Analytics Professional Certificate, Google

ACHIEVEMENTS

- Recognized as a 24x LinkedIn Top Voice.

- Ranked among the Top 100 Global Kaggle contributors.
- Served as KaggleX BIPOC Mentor and first Pakistani mentor in the program.
- Contributed to NVIDIA Developer Program, Google Developer Group, and AWS AI Community.
- Delivered AI solutions that generated measurable outcomes including cost savings, revenue growth, improved forecasting accuracy, and reduced manual processing time.
