SKILLS

- Python
- Java
- C
- C++
- JavaScript
- SQL
- Data Structures and Algorithms
- Object-Oriented Programming
- Software Design
- Database Management Systems
- Operating Systems
- Computer Networks
- Computer Architecture
- HTML
- CSS
- Vue.js
- Flutter
- TensorFlow
- Computer Vision
- NLP
- Deep Learning Fundamentals
- Git
- GitHub
- Kaggle
- Google Colab
- VS Code
- Debugging
- Testing
- Application Development

PROFESSIONAL SUMMARY

Computer Science Engineering student with a strong foundation in data structures, algorithms, object-oriented programming, software design, operating systems, database systems, and computer networks. Hands-on experience in software development, computer vision, and AI-powered applications using Python, Java, C/C++, JavaScript, SQL, TensorFlow, Vue.js, and Flutter. Proven ability to build and test prototypes, debug issues, and apply computer science fundamentals to real-world engineering problems. Eager to contribute to scalable, high-performance systems and collaborative software engineering teams.

PROFESSIONAL EXPERIENCE

Software Development Intern

2X Smart Solutions Pvt. Ltd. | May 2026 – June 2026

- Developed and tested an image and video-sharing platform prototype, contributing to feature implementation, debugging, and deployment preparation.
- Built a Netflix-inspired streaming application using Vue.js with a focus on user interface development and core application functionality.
- Designed and implemented an AI-powered resume tailoring system that analyzes job descriptions and customizes resumes while preserving factual candidate information.
- Collaborated on feature enhancements, testing workflows, and issue resolution to improve application stability and usability.

Computer Vision Intern

Defence Research and Development Organisation (DRDO) | May 2025 – June 2025

- Worked on image detection pipelines for Armoured Fighting Vehicle datasets using Python and TensorFlow.
- Performed data preprocessing, model training, testing, and evaluation workflows for object detection experimentation.
- Used Kaggle datasets and machine learning tools to support computer vision research and model experimentation.
- Applied deep learning and image processing fundamentals to analyze detection results and improve experimentation quality.

PROJECTS

AI-Powered Resume Tailoring System

Designed a resume optimization system that customizes resumes based on job descriptions while preserving factual information. Built support for PDF upload and ATS-focused resume enhancement.

Driver Drowsiness Detection System

Developed a real-time fatigue detection system using computer vision and facial landmarks with a multi-stage alert mechanism to support road safety.

Smart Attendance System

Built a Flutter-based QR attendance application with productivity-focused features for streamlined attendance tracking.

Image Detection in Armoured Fighting Vehicles

Implemented a computer vision project using Python and TensorFlow for image detection experimentation on Armoured Fighting Vehicle datasets.

Four-Way Traffic Light Controller with Pedestrian Crossing

Created an FPGA-based traffic management system demonstrating digital logic design and structured control flow for pedestrian crossing support.

Course Management System

Developed a Java-based course management application demonstrating object-oriented programming principles and software design fundamentals.

EDUCATION

Bachelor of Technology in Computer Science Engineering

Vellore Institute of Technology (VIT), Chennai | Expected 2028

CERTIFICATIONS

- Cisco Networking Basics
- Cisco Introduction to Cybersecurity
- Cisco Introduction to Internet of Things (IoT) and Digital Transforms

ACHIEVEMENTS

- Maintained a CGPA of 9.08/10.0 in Computer Science Engineering.
- Active LeetCode problem solver.
- Completed internships in software development and computer vision.
- Completed relevant coursework in Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Computer Networks, Operating Systems, Computer Architecture, and Web Programming.
