

Anafa Fariyaa

Data Analyst | Python | SQL

anafa.fariyaa2024@vitstudent.ac.in | 9384686999 | Chennai, Tamil Nadu | [linkedin.com/in/anafa-fariyaa](#) | [github.com/anxfairytale](#)

PROFESSIONAL SUMMARY

Computer Science Engineering student at Vellore Institute of Technology, Chennai with a 9.08/10 CGPA and hands-on experience in Python, SQL, data preprocessing, model training, and analytical problem-solving. Experienced in building AI-based solutions, working with datasets in Kaggle and Google Colab, and applying machine learning fundamentals to structured and unstructured data. Strong foundation in database systems, data analysis, debugging, testing, and technical documentation. Quick learner with interest in predictive modeling, scalable analytics workflows, and deriving actionable insights from data.

CORE SKILLS

Python • SQL • Data Analysis • Data Preprocessing • Model Training • Model Evaluation • Machine Learning Fundamentals • Statistical Analysis • TensorFlow • Computer Vision • Deep Learning Fundamentals • Pandas • NumPy • Database Management Systems • Data Structures and Algorithms • Problem Solving • Analytical Thinking • Debugging • Testing • Technical Documentation • Git • GitHub • Kaggle • Google Colab • Java • C • C++ • JavaScript • HTML • CSS • Vue.js • Flutter

PROFESSIONAL EXPERIENCE

Software Development Intern

2X Smart Solutions Pvt. Ltd. | May 2026 – June 2026

- Developed and tested an image and video-sharing platform prototype, contributing to feature implementation, debugging, and deployment preparation.
- Built a Netflix-inspired streaming application using Vue.js with a focus on interface functionality and user experience.
- Designed and implemented an AI-powered resume tailoring system that analyzes job descriptions and customizes resumes while preserving factual candidate information.
- Collaborated on feature enhancements, testing workflows, and issue resolution to improve application stability and usability.

Computer Vision Intern

Defence Research and Development Organisation (DRDO) | May 2025 – June 2025

- Worked on image detection pipelines for Armoured Fighting Vehicle datasets using Python and TensorFlow.
- Performed data preprocessing, model training, testing, and evaluation workflows for object detection experimentation.
- Used Kaggle datasets and machine learning tools to support experimentation and model development.
- Applied deep learning and image processing fundamentals to analyze detection results and improve experimentation quality.

PROJECTS

AI-Powered Resume Tailoring System

Designed a resume optimization system that customizes resumes based on job descriptions while preserving factual information. Built support for PDF upload and ATS-focused resume enhancement.

Driver Drowsiness Detection System

Developed a real-time fatigue detection system using computer vision and facial landmarks with a multi-stage alert mechanism to support road safety.

Image Detection in Armoured Fighting Vehicles

Implemented a computer vision project using Python and TensorFlow for image detection experimentation on Armoured Fighting Vehicle datasets.

Smart Attendance System

Built a Flutter-based QR attendance application with productivity-focused features for streamlined attendance tracking.

EDUCATION

Bachelor of Technology in Computer Science Engineering

Vellore Institute of Technology (VIT), Chennai | Expected 2028

CERTIFICATIONS

- Cisco Networking Basics
- Cisco Introduction to Cybersecurity
- Cisco Introduction to Internet of Things (IoT) and Digital Transforms

ACHIEVEMENTS

- Maintained a CGPA of 9.08/10.0 in Computer Science Engineering.
- Active LeetCode problem solver: leetcode.com/u/fariyaatale.
- Completed internships in software development and computer vision.
- Completed relevant coursework in Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Computer Networks, Operating Systems, Computer Architecture, and Web Programming.
