

Anafa Fariyaa

Computer Science Student | Software Engineering Intern Candidate

fariyaa2005@gmail.com | 9384686999 | Chennai, Tamil Nadu | [linkedin.com/in/anafa-fariyaa](https://www.linkedin.com/in/anafa-fariyaa) | github.com/anxfairytale | leetcode.com/u/fariyaatale

PROFESSIONAL SUMMARY

Computer Science Engineering undergraduate at Vellore Institute of Technology, Chennai with a 9.08/10 CGPA and hands-on experience in software development, computer vision, AI/ML experimentation, and full-stack application prototyping. Skilled in Python, Java, C, C++, JavaScript, SQL, data structures, algorithms, object-oriented programming, operating systems, databases, and computer networks. Experienced in building AI-powered tools, web applications, image detection pipelines, and real-time computer vision systems, with a strong interest in scalable engineering solutions and high-impact software development.

CORE SKILLS

Programming Languages: Python, Java, C, C++, JavaScript, SQL • Core Computer Science: Data Structures and Algorithms, Object-Oriented Programming, Software Design, Operating Systems, DBMS, Computer Networks, Computer Architecture • Web and App Development: HTML, CSS, Vue.js, Flutter • AI and Machine Learning: TensorFlow, Computer Vision, NLP, Deep Learning Fundamentals, Model Training and Evaluation • Tools and Platforms: Git, GitHub, Kaggle, Google Colab, VS Code • Engineering Practices: Debugging, Testing, Feature Enhancement, Deployment Preparation, Problem Solving

PROFESSIONAL EXPERIENCE

Software Development Intern

2X Smart Solutions Pvt. Ltd. | May 2026 – June 2026

- Developed and tested an image and video-sharing platform prototype, contributing to core application functionality and user-facing features.
- Built a Netflix-inspired streaming application using Vue.js, strengthening front-end engineering and component-based development skills.
- Designed and implemented an AI-powered resume tailoring system that customizes resumes based on job descriptions while preserving factual candidate information.
- Participated in debugging, testing, deployment preparation, and feature enhancement to improve application quality and reliability.

Computer Vision Intern

Defence Research and Development Organisation (DRDO) | May 2025 – June 2025

- Worked on image detection pipelines for Armoured Fighting Vehicle datasets using Python and TensorFlow.
- Used Kaggle datasets for object detection experimentation, model training, and evaluation workflows.
- Performed preprocessing, testing, and performance evaluation to support computer vision model development.
- Applied machine learning and deep learning fundamentals to real-world image detection use cases.

PROJECTS

AI-Powered Resume Tailoring System

Designed an AI-enabled resume optimization tool that tailors resumes to job descriptions while preserving factual information; supports PDF upload and ATS-focused improvements.

Driver Drowsiness Detection System

Built a real-time fatigue detection system using computer vision and facial landmarks, with a multi-stage alert mechanism to support road safety.

Smart Attendance System

Developed a Flutter-based QR attendance application with productivity-focused features for streamlined attendance tracking.

Image Detection in Armoured Fighting Vehicles

Created a computer vision project using Python and TensorFlow for image detection experimentation on Armoured Fighting Vehicle datasets.

Four-Way Traffic Light Controller with Pedestrian Crossing

Implemented an FPGA-based traffic management system simulating four-way traffic control with pedestrian crossing functionality.

Course Management System

Developed a Java-based course management application demonstrating object-oriented programming concepts and software design principles.

EDUCATION

Bachelor of Technology in Computer Science Engineering

Vellore Institute of Technology (VIT), Chennai | Expected Graduation: 2028

CERTIFICATIONS

- Cisco Introduction to Cybersecurity
- Cisco Introduction to Internet of Things (IoT)

ACHIEVEMENTS

- Maintained a CGPA of 9.08/10 in Computer Science Engineering.
- Active LeetCode problem solver focused on strengthening data structures and algorithms skills.
- Completed internships in software development and computer vision.
- Completed relevant coursework in Data Structures and Algorithms, Object-Oriented Programming, DBMS, Computer Networks, Operating Systems, Computer Architecture, and Web Programming.
