

Anafa Fariyaa

Computer Science Engineering Student | Software Engineering Intern Candidate

fariyaa2005@gmail.com | 9384686999 | Chennai, Tamil Nadu, India | [linkedin.com/in/anafa-fariyaa](https://www.linkedin.com/in/anafa-fariyaa) | github.com/anxfairytale

PROFESSIONAL SUMMARY

Computer Science Engineering student at Vellore Institute of Technology, Chennai with a 9.08/10 CGPA and hands-on experience in software development, AI-powered applications, computer vision, and full-stack prototypes. Skilled in Python, Java, C, C++, JavaScript, SQL, data structures, algorithms, object-oriented programming, operating systems, database systems, and computer networks. Experienced in building and testing applications using Vue.js, Flutter, TensorFlow, Git, Kaggle, and Google Colab. Strong interest in scalable software engineering, AI-integrated systems, debugging, performance-focused development, and applying computer science fundamentals to real-world technical challenges.

CORE SKILLS

Python • Java • C • C++ • JavaScript • SQL • Data Structures and Algorithms • Object-Oriented Programming • Software Design • Database Management Systems • Operating Systems • Computer Networks • Computer Architecture • HTML • CSS • Vue.js • Flutter • TensorFlow • Computer Vision • Natural Language Processing • Deep Learning Fundamentals • Artificial Intelligence • Machine Learning • Git • GitHub • Kaggle • Google Colab • VS Code • Debugging • Testing • Application Development

PROFESSIONAL EXPERIENCE

Software Development Intern

2X Smart Solutions Pvt. Ltd. | May 2026 – June 2026

- Developed and tested an image and video-sharing platform prototype, contributing to feature implementation, debugging, and deployment preparation.
- Built a Netflix-inspired streaming application using Vue.js, focusing on responsive user interface development and application functionality.
- Designed and implemented an AI-powered resume tailoring system that analyzes job descriptions and customizes resumes while preserving factual candidate information.
- Collaborated on feature enhancements, testing workflows, and issue resolution to improve application stability, usability, and reliability.

Computer Vision Intern

Defence Research and Development Organisation (DRDO) | May 2025 – June 2025

- Worked on image detection pipelines for Armoured Fighting Vehicle datasets using Python and TensorFlow.
- Performed data preprocessing, model training, testing, and evaluation workflows for object detection experimentation.
- Used Kaggle datasets and machine learning tools to support computer vision research and model experimentation.
- Applied deep learning and image processing fundamentals to analyze detection results and improve experimentation quality.

PROJECTS

AI-Powered Resume Tailoring System

Designed a resume optimization system that customizes resumes based on job descriptions while preserving factual information. Built support for PDF upload and ATS-focused resume enhancement.

Driver Drowsiness Detection System

Developed a real-time fatigue detection system using computer vision and facial landmarks with a multi-stage alert mechanism to support road safety.

Smart Attendance System

Built a Flutter-based QR attendance application with productivity-focused features for streamlined attendance tracking.

Image Detection in Armoured Fighting Vehicles

Implemented a computer vision project using Python and TensorFlow for image detection experimentation on Armoured Fighting Vehicle datasets.

Four-Way Traffic Light Controller with Pedestrian Crossing

Created an FPGA-based traffic management system demonstrating digital logic design and structured control flow for pedestrian crossing support.

Course Management System

Developed a Java-based course management application demonstrating object-oriented programming principles and software design fundamentals.

EDUCATION

Bachelor of Technology in Computer Science Engineering

Vellore Institute of Technology (VIT), Chennai | Expected Graduation: 2028

CERTIFICATIONS

- Cisco Networking Basics
- Cisco Introduction to Cybersecurity
- Cisco Introduction to Internet of Things (IoT) and Digital Transforms

ACHIEVEMENTS

- Maintained a CGPA of 9.08/10.0 in Computer Science Engineering.
- Active LeetCode problem solver: leetcode.com/u/fariyaatale.
- Completed internships in software development and computer vision.
- Completed relevant coursework in Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Computer Networks, Operating Systems, Computer Architecture, and Web Programming.
